SUBJECT INDEX

Abomasal emptying and secretion in the milk-fed calf, Differential effect of acid meals on 231
Acid meals, Differential effect of, on abomasal emptying and secretion in the milk-fed calf 231
Adrenal gland of the donkey, Relationship of the cortex and medulla in 261
Adrenocortical function and plasma biochemical values in dogs after subconjunctival treatment with methylprednisolone acetate 306
Age associated morphological changes in the lymphoid system of tropical cattle 270
Aldrin intoxication, chronic, in goats, Bone growth during 283
Aleutian disease virus, Intrapulmonary lymphoid tissue in mink infected with 206
Aikaline phosphatase, intestinal, distribution of in the rabbit and Fetal development 303
Allergy test, intradermal, Evaluation of, in normal dogs 57
Anaplasma centrale, Babesia bovis and *Babesia bigemina*, Preparation and laboratory testing of a frozen vaccine containing 194
Anguina agrostis and *Corynebacterium rathayi*, Hepatic damage in sheep fed annual ryegrass, *Lolium rigidum*, parasitised by 148
Antibody response in cattle, sheep and rats to infection with γ-irradiated metacercariae of *Fasciola hepatica* 354
Antibody response of pigs to foot-and-mouth disease oil emulsion vaccine: the antibody classes involved 327
Antibody-antigen interactions, bovine, A possible role of Cu^{2+} ions in 221
Antitheilerial effect of Wellcome 993C and halofuginone, Comparison of 84
Aujeszky's disease in pigs, Immunoperoxidase study of 294
Aujeszky's disease vaccine, inactivated, Oronasal challenge of fattening pigs after vaccination with 12

Babesia bigemina, Anaplasma centrale and *Babesia bovis*, Preparation and laboratory testing of a frozen vaccine containing 194
Babesia bovis, Babesia bigemina and *Anaplasma centrale*, Preparation and laboratory testing of a frozen vaccine containing 194
Bacteroides nodosus vaccines, Importance of pilus-associated antigen in 140
Bile flow and the diurnal variation in biliary manganese, iron, copper and zinc extraction, Surgical procedure for modifying the duodenum in cattle to measure 6
Biliary manganese, iron, copper and zinc extraction, Surgical procedure for modifying the duodenum in cattle to measure bile flow and the diurnal variation in 6
Biochemical values, plasma, and adrenocortical function in dogs after subconjunctival treatment with methylprednisolone acetate 306
Blood, fetal and maternal, Changes in, at the end of pregnancy and during parturition in the pig 278
Bone growth during chronic aldrin intoxication in goats 283
Bordetella bronchiseptica vaccines, killed, in the mouse, Immunogenicity of 248
Buffaloes — Haematological studies on normal lactating Indian water buffaloes 52

CT1341, thiopentone and ketamine in cats, Physiological effects of 157
Calicivirus — Efficacy of an inactivated feline calicivirus (FCV) vaccine against challenge with United Kingdom field strains and its interaction with the FCV carrier state 23
Campylobacter sputorum subspecies *mucosalis*, Presence of serum agglutinins to, in pigs 89
Cannulation, re-entrant, of the duodenum and ileocaecum, New methods for 265
Cold exposure, short term, Effects of on digestion of milk replacer by young preruminant calves 383
Colostrum from cows vaccinated with rotavirus, Diarrhoea in dairy calves reduced by feeding 70
Cortex and medulla, Relationship of, in the adrenal gland of the donkey 261
Corynebacterium rathayi and *Anguina agrostis*, Hepatic damage in sheep fed annual ryegrass, *Lolium rigidum*, parasitised by 148
Corynebacterium suis, A selective medium for the isolation of 389
Cosyntropin (synthetic ACTH) injection in normal dogs, Effects of dexamethasone infusion on the plasma cortisol response to 181
Cruciate ligament — Immunological changes in canine cruciate ligament rupture 235
Cu^{2+} ions, A possible role of, in bovine antibody-antigen interactions 221

Dexamethasone infusion, Effects of, on the plasma cortisol response to cosyntropin (synthetic ACTH) injection in normal dogs 181
Diarrhoea in dairy calves reduced by feeding colostrum from cows vaccinated with rotavirus 70
Diarrhoea, some effects of, on the physiology and histology of the gastrointestinal tract, and Incidence of rotavirus in artificially reared pigs 48
Dictyocaulus viviparus, Observations on the epidemiology of, in north west England 163
Digestion of milk replacer by young preruminant calves, Effects of short term cold exposure on 383

Diminazene aceturate — Delay in resolution of trypanosome-induced genital lesions in male rabbits infected with *Trypanosoma brucei* and treated with diminazene aceturate 374
Duodenum and ileocaecum, New methods for re-entrant cannulation of 265
Duodenum in cattle, Surgical procedure for modifying, to measure bile flow and the diurnal variation in biliary manganese, iron, copper and zinc extraction 6
Dysentery, Swine: the influence of dietary vitamin E and selenium on the clinical and pathological effects of *Treponema hyodysenteriae* infection in pigs 95

Endurance exercise and food deprivation, Changes in certain metabolic parameters in horses associated with 198
Enzyme activity, intestinal, Changes in, during chronic infection with *Trichostrongylus vitrinus* 316
Erythroid colonies, Characteristics of, formed by bovine marrow progenitor cells in methyl cellulose cultures 213

Fasciola hepatica: antibody coating of juvenile flukes in the intestinal lumen of resistant rats 44
Fasciola hepatica, Antibody response in cattle, sheep and rats to infection with γ-irradiated metacercariae of 354
Fasciola hepatica, newly excysted, In vitro cell adherence to: failure to affect their subsequent development in rats 118
Fetal development and distribution of intestinal alkaline phosphatase in the rabbit 303
Food deprivation and endurance exercise, Changes in certain metabolic parameters in horses associated with 198
Foot-and-mouth disease oil emulsion vaccine, Antibody response of pigs to: the antibody classes involved 327
Foot-and-mouth disease virus antibodies in vaccinated cattle, Stimulation by heterotypic antigens of 338

Gallamine and pancuronium, Observations on the neuromuscular blocking action of, and their reversal by neostigmine 324
Gastrointestinal nematode infections, Population build up of, in ewes and lambs on pastures grazed by calves in the previous year 203
Glucagon, Effects of repeated injections of, on stress response of the immature fowl 343
Growth rates of individual fetuses during late pregnancy, Effects of long term undernutrition of the ewe on 177

Haematological studies on normal lactating Indian water buffaloes 52
Haemonchus contortus eggs, Comparison of changes in resistance of, following withdrawal of thiabendazole selection 39
Haemonchus contortus, 10,000, Changes in the flow and composition of gastric lymph in sheep given a primary infection of 184
Halofuginone — Comparison of antitheilerial effect of Wellcome 993C and halofuginone 84
Hepatic damage in sheep fed annual ryegrass, *Lolium rigidum*, parasitised by *Anguina agrostis* and *Corynebacterium rathayi* 148
Histology and immunology of Peyer's patches in the domestic fowl (*Gallus domesticus*) 359
Hypoplasia, testicular, in *Bos indicus* strain bulls, Quantitative macroscopic and histological study of 131

Ileocaecum and duodenum, New methods for re-entrant cannulation of 265
Immunogenicity of killed *Bordetella bronchiseptica* vaccines in the mouse 248
Immunoglobulin catabolism, Importance of the liver in 62
Immunological changes in canine cruciate ligament rupture 235
Immunoperoxidase study of Aujeszky's disease in pigs 294
Immunosuppression caused by a vaccine strain of infectious bursal disease virus, Duration of 79
Immunosuppression in bovine trypanosomiasis: response of cattle infected with *Trypanosoma congolense* to foot-and-mouth disease vaccination and subsequent live virus challenge 289
Infectious bovine keratoconjunctivitis, Development of a laboratory animal model for 128
Infectious bursal disease virus, Duration of immunosuppression caused by a vaccine strain of 79
Intestinal enzyme activity of lambs, Changes in, during chronic infection with *Trichostrongylus vitrinus* 316

Keratoconjunctivitis, infectious bovine, Development of a laboratory animal model for 128
Ketamine, CT1341 and thiopentone in cats, Physiological effects of 157

Lactobacillus, Isolation of a hydrogen peroxide-producing strain of, from calf gut 259
Leptospires, Failure to demonstrate the maintenance of, by house mice (*Mus musculus*) in the south east of England 387
Levamisole in sheep, Pharmacokinetics of 124
Liver, Importance of, in immunoglobulin catabolism 62
Lymphoid system of tropical cattle, Age associated morphological changes in 270

Medulla and cortex, Relationship of, in the adrenal gland of the donkey 261
Metabolic parameters in horses associated with food deprivation and endurance exercise 198
Metacercariae, γ-irradiated, of *Fasciola hepatica*, Antibody response in cattle, sheep and rats to infection with 354
Methyl prednisolone acetate, Adrenocortical function and plasma biochemical values in dogs after subconjunctival treatment with 306
Microtitre techniques for the assay of rinderpest virus and neutralising antibody 253
Milk replacer, Effects of short term cold exposure on digestion of, by young preruminant calves 383

Nematode infections — Population build up of gastro-intestinal nematode infections in ewes and lambs on pastures grazed by calves in the previous year 203
Nematodirus spathiger, Ecology of the free-living stages of 35
Neostigmine, Observations on the neuromuscular blocking action of, and their reversal by neostigmine 324
Neuromuscular block, Residual non-depolarising, assessed by train-of-four stimulation in the dog 121
Neuromuscular blocking action of gallamine and pancuronium and their reversal by neostigmine, Observations on 324

Ocular lesions in cattle, Evidence for papillomaviruses in 257
Ostertagia circumcincta, Attempts to immunise sheep against, with irradiated larvae 101
Ostertagia ostertagi in calves: growth, nitrogen balance and digestibility studies conducted during winter feeding following different fenbendazole therapy programmes 74
Ostertagia — Population study of bovine *Ostertagia* spp infective larvae on herbage and in soil 332
Ostertagia spp sensu lato in calves, Observations on the infectivity and pathogenicity of three isolates of 106

Pancuronium and gallamine, Observations on the neuromuscular blocking action of, and their reversal by neostigmine 324
Papillomaviruses, Evidence for, in ocular lesions in cattle 257
Pasteurella haemolytica, A new serotype (biotype T) of 127
Perinatal changes in lambs infected with *Toxoplasma gondii* 170
Peyer's patches, Histology and immunology of, in the domestic fowl (*Gallus domesticus*) 359
Pharmacokinetics of levamisole in sheep 124
Pilus-associated antigen, Importance of, in *Bacteroides nodosus* vaccines 140
Population study of bovine *Ostertagia* spp infective larvae on herbage and in soil 332
Pregnancy, late, Effects on the rate of increase in fetal girth of refeeding ewes after short periods of severe undernutrition during 377

Rinderpest virus and neutralising antibody, Microtitre techniques for the assay of 253
Rinderpest virus in experimentally infected cattle, An enzyme-linked immunosorbent assay for the detection of IgG, IgA and IgM antibodies to 242
Rotavirus, Diarrhoea in dairy calves reduced by feeding colostrum from cows vaccinated with 70
Rotavirus, Incidence of, in artificially reared pigs and some effects of diarrhoea on the physiology and histology of the gastrointestinal tract 48

Salmonella dublin, heat-killed, Protection of cattle against experimentally induced salmonellosis by intradermal injection of 368
Salmonella in cattle, Delayed hypersensitivity skin test for detection of immune responses against 225
Serum folate and vitamin B_{12} concentrations, Role of, in the differentiation of small intestinal abnormalities in the dog 17
Small intestinal abnormalities in the dog, Role of serum folate and vitamin B_{12} concentrations in the differentiation of 17
Straphylococcus aureus, Virulence of, grown in vitro or in vivo 311
Streptobacillus actinoides (*Bacillus actinoides*): isolation from pneumonic lungs of calves and pathogenicity studies in gnotobiotic calves 27
Stress response of the immature fowl, Effects of repeated injections of glucagon on 343
Strongyle eggs, Specific identification of, in small samples of sheep faeces 113
Surgical procedure for modifying the duodenum in cattle to measure bile flow and the diurnal variation in biliary manganese, iron, copper and zinc extraction 6
Swine dysentery: the influence of dietary vitamin E and selenium on the clinical and pathological effects of *Treponema hyodysenteriae* infection in pigs 95

Taenia hydatigena oncospheres, Field trial to evaluate the use of antigens from, to prevent infection with *Taenia saginata* in cattle grazing on sewage-irrigated pasture 189
Taenia ovis, Vaccination of sheep against. The response to various dose rates of antigens obtained by incubation of oncospheres in vitro 351
Taenia saginata in cattle grazing on sewage-irrigated pasture, Field trial to evaluate the use of antigens from *Taenia hydatigena* oncospheres to prevent infection with 189
Testicular hypoplasia in *Bos indicus* strain bulls, Quantitative macroscopic and histological study of 131
Thiabendazole selection, Comparison of changes in resistance of *Haemonchus contortus* eggs following withdrawal of 39
Thiopentone, ketamine and CT1341 in cats, Physiological effects of 157
Toxoplasma gondii, Perinatal changes in lambs infected with 170
Trichostrongylus vitrinus, Changes in the intestinal enzyme activity of lambs during chronic infection with 316
Trypanosoma vivax infection, experimental, in cattle, Variation in erythrocytic surface and free serum sialic acid concentrations during 17
Trypanosome-induced genital lesions, Delay in resolution of, in male rabbits infected with *Trypanosoma brucei* and treated with diminazene aceturate 374
Trypanosomiasis, bovine, Immunosuppression in: response of cattle infected with *Trypanosoma congolense* to foot-and-mouth disease vaccination and subsequent live virus challenge 289

Undernutrition, long term, of the ewe, Effects of, on the growth rates of individual fetuses during late pregnancy 177
Undernutrition, severe, during late pregnancy, Effects on the rate of increase in fetal girth of refeeding ewes after short periods of 377

Vaccination of sheep against *Taenia ovis*. The response to various dose rates of antigens obtained by incubation of oncospheres in vitro 351
Vaccine, foot-and-mouth disease oil emulsion, Antibody response of pigs to: the antibody classes involved 327
Vaccine, frozen, containing *Babesia bovis*, *Babesia bigemina* and *Anaplasma centrale*, Preparation and laboratory testing of 194
Verruculogen — Metabolism and excretion of [^{14}C] verruculogen in a sheep 347
Vitamin B_{12} and serum folate concentrations, Role of, in the differentiation of small intestinal abnormalities in the dog 17

Wellcome 993C and halofuginone, Comparison of antitheilerial effect of 84
